Native

RELEVANT COURSES

- Data Structures & Algorithms
- Database Systems
- Object Oriented Programming
- Computer Networking
- Operating Systems
- Software Engineering
- Web Development
- Mobile Application Development

PROFESSIONAL SUMMARY

Passionate and driven Full Stack Developer currently in my 3rd year of BSc Information Technology at Hawassa University. Experienced in building full stack web applications, desktop systems, distributed services, and Android apps. Seeking an internship opportunity to apply and grow my skills in a professional environment.

PROJECTS

Job Application Tracker

- Node.js
- Express
- TypeScript
- PostgreSQL
- Supabase
- JWT

- Full stack web app to track internship and job applications through a Kanban board.
- Built REST API with Node.js, Express, and TypeScript with JWT authentication.
- PostgreSQL database hosted on Supabase with analytics dashboard and search features.

Chat Application

- C#
- .NET
- Desktop

- Real time desktop chat application built with C# and .NET.
- Supports multiple users, message history, and live messaging.
- Pushed to GitHub as part of professional portfolio.

Food Delivery Android App

- Java
- Android Studio
- Mobile

- Android mobile application for browsing restaurants and placing food orders.
- Built with Java and Android Studio with a clean user interface.

Student Management System

- Java
- JavaFX
- Desktop

- Desktop application built with JavaFX for managing student records.
- Features include adding, editing, deleting, and searching student data.

Restaurant Management Service

- RabbitMQ
- Microservices
- Distributed Systems

- Distributed system using RabbitMQ and microservices architecture.
- Handles order processing and communication between services.

EDUCATION

Hawassa University

2022 – 2027 (Expected)

BSc Information Technology

Currently 3rd Year
